I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand, deserve - - and PAY for. Satellite radio provides variety and quality that are not available elsewhere. And just as cable TV has given the viewing public variety and choice, so MUST satellite radio for the listening public.

Please do not take the freedom of choice from law abiding, paying consumers, for the sake of the big monopolistic NAB.
